Explanation

Historical data has been adjusted due to changes in scope. In 2023, Aviko BV-Cuijk and Aviko Norden were sold. In addition, the acquisitions of Aviko Inner Mongolia (December 2020) and Rixona GmbH Stavenhagen (January 2021) took place. In 2021, the new Aviko Belgium-Poperinge factory became operational. As part of the preparation for the CSRD (Corporate Sustainability Reporting Directive), data has in some cases been adjusted due to changes in definitions, calculation methods and scope.
